

Stop Dreaming. Start Living.

LUXURY LOG HOMES
FOR THE WAY YOU LIVE TODAY

No Assembly Required.

Real dreams. Real logs.
Real schedules.

Congratulations, you've taken the first important step toward owning the log home you've always dreamed of by considering Blue Ridge Log Cabins. If you're going to build a log home, why not go with the people who offer you the very best value in America. Thank you for taking a closer look. I can say without a doubt that you will be glad you did. Only Blue Ridge Log Cabins matches the qualities of premium log homes with the economies of production home building, providing authentic, solid log homes through a fully factory-controlled process.

We give you all the rustic, charming, down-home feel you expect from a log home, with the ease, efficiency, and speed that comes only with the modular building process. It's a revolutionary way to build, and it's why Blue Ridge Log Cabins is a leader in the log home industry. We've moved log home-building away from the confusion and tedium of site-built "Log Home Kits" and away from the complications that arise from contractors who are not familiar with log home construction. Our approach is thorough, responsive, streamlined, cost-conscious, green, and simple.

These are the principles that have guided this company nearly 20 years, and it's an approach the entire Blue Ridge Log Cabins team upholds every day. It's also why we have a 100% customer satisfaction rate. I invite you to learn more about Blue Ridge Log Cabins, our innovative building process, and our commitment to service, technology, and value. Visit our website at www.blueridgelogcabins.com, or attend a building seminar at our state-of-the-art manufacturing plant in South Carolina. Or just browse this brochure and pick up the phone and give us a call. Send in the enclosed Business Reply Card and we'll send you our comprehensive product brochure.

You will find, like hundreds of satisfied log home owners before you, that all paths lead you home to Blue Ridge Log Cabins. It's because we build homes. Not kits. We know that dreams should last a lifetime – they shouldn't take a lifetime. Contact us today. We're ready to make your dreams a reality.

Chip Smith
President and CEO

IN THE SPOTLIGHT

Nearly 1,000 families are enjoying the premium log homes of Blue Ridge Log Cabins and the chances are you've seen at least one of our creations. We were proud to partner recently with ABC's *Extreme Makeover: Home Edition* to build a log home for the Marshall Family in Fayetteville, North Carolina. Not only were we able to help people in need, we also were able to show that a log home can be built anywhere. The home was designed to fit into the neighborhood yet still retain the elements that make a log home a unique and welcoming environment. One of our Linville Series homes from our Classic Collection was also featured in the premier episode of HGTV's *Amazing Log Cabins*.

Our reputation for customer service and innovation goes back almost two decades. Founded in 1992, Blue Ridge Log Cabins is widely considered the most innovative company of its kind in America. Ranked by Inc. magazine as one of the fastest growing privately held companies in the nation two years running, Blue Ridge Log Cabins invented modular home-building practices that reduce the cost, time and risk normally associated with log home construction. And now we're ready to apply our knowledge and experience to building your dream log home.

Foundation OF EXCELLENCE

WHAT SETS US APART?

PRICE GUARANTEE

We build complete custom log homes with the industry's only turn-key price guarantee. The price in your agreement is the final price for your home. Period.

FULLY-ASSEMBLED

We are America's only log home builder delivering fully-assembled solid log homes. There are no missing pieces or unanswered questions.

ONE-DAY EXPERIENCE

Premium log homes are ready in as little as six weeks and we will deliver a beautiful log home to your land and have it up before the day is done.

PEACE OF MIND

We control every last step of the construction and delivery process because everyone is a Blue Ridge Log Cabins team member.

STATE-OF-THE ART MANUFACTURING

Only Blue Ridge Log Cabins completes premium kiln-dried log homes in a climate-controlled, state-of-the-art manufacturing facility.

MORTGAGE QUALIFICATION

Blue Ridge Log Cabins is the only log home builder that can offer the opportunity to qualify for 95% loan-to-value conventional mortgages.

THE BEST VALUE

Without question Blue Ridge Log Cabins offers you the very best log home value in America today.

*"Go confidently in the direction of your
dreams. Live the life you have imagined."*

— Henry David Thoreau

ESTATE COLLECTION The Ultimate in Log Home Luxury

If you're thinking of a traditional log cabin, think again. Our Estate Collection provides for every convenience and modern amenity through innovative designs that create a striking profile that sets your home apart. Expansive decks embrace the outdoors while walls of glass and soaring cathedral ceilings ensure you're always in touch with nature. Curl up with a book in the welcoming lofts or sip a glass of wine before a fire in the stone fireplace. Ranging in size from 1,484 to 3,059 square feet, these homes deliver comfort, quality and sacrifice absolutely nothing. *No matter your style, we have the home for you.*

Jocassee

JOCASSEE SERIES

- 2 Bedrooms + Loft, 2 Bathrooms
- 1,484 to 1,781 square feet

CABIN COLLECTION Weekend Getaway or Vacation Retreat

Nothing feels more like a true escape from the clutter, noise and hassle of the modern world than a few days in a log cabin. Quaint and cozy but with thoughtful design touches that provide plenty of room for living, our Cabin Collection harks back to the days of the frontier. But beautiful kitchens, inviting covered porches, spacious lofts and ample storage are designed with today's needs in mind. Ranging from 613 to 1,487 square feet, these delightful retreats can be passed down for generations. *Get ready to leave the ordinary and prepare yourself for the extraordinary.*

LAKE LURE SERIES

- 1-2 Bedrooms, 2 Bathrooms
- 939 to 1,321 square feet

BLUE RIDGE LOG CABINS - INTERACTIVE AND INFORMATIVE

To find photographs, 360-virtual tours, educational videos and more, visit us at www.BlueRidgeLogCabins.com

Our Promise

Blue Ridge Log Cabins will deliver the perfect log home on-time and on-budget. That's our promise to you.

Only Blue Ridge Log Cabins builds complete premium log homes in a controlled, innovative state-of-the-art manufacturing facility. For you that means a home that is ready faster and made stronger, and with greater control over the construction process – it also means superior quality. Traditional, on-site log home construction can take up to eighteen months. With our modular building technology, delays and cost overruns are never an issue since production cannot be slowed down by weather, contractor no-shows or damaged materials. Our skilled craftsmen, along with your local builder, can construct your home in a fraction of the time involved in traditional on-site construction.

Blue Ridge Log Cabin homes are system-built by skilled log home craftsman. We build efficiently, with no wasted materials or supplies, and we expertly assemble each log safe from extreme temperatures, precipitation, and the hazards inherent in most construction sites. We bring it all together – the electrical system, plumbing, light fixtures and even appliances. We don't drop off a "kit" on your property. We deliver a completed house that comes together, on your prepared land, in just one day. But we're not done yet. Your home includes a complete warranty for one full year and an extended structural warranty for up to 10 years. We promise to stand by you as your dreams become reality.

10 Simple Steps to get you started today.

- 1 Send in the enclosed card to get our full brochure, visit our website, call us or come visit our facility. Get to know us and take your time, ask questions, dig and probe.
- 2 Let us help you determine the best home to match the views and topography of your land, your lifestyle and your dreams. Choose from our selection or bring your own ideas.
- 3 Make your options and décor choices, so your home is distinctly yours and truly unique.
- 4 We visit your land and work with your builder, ensuring there are no glitches or unexpected surprises as construction begins.
- 5 Using state-of-the-art, computer-assisted design, our in-plant engineers will create the engineering plans for your house, incorporating any design or floor plan changes or minor custom changes at no charge. All plans are stamped by a licensed engineer and reviewed by a third party and will meet local building codes.
- 6 As the plans for your dream property and your dream home come together, we'll be able to tell you, down to the dime, an exact price for your finished log home. We guarantee it.
- 7 Your plans will immediately enter the production queue, and our teams of builders, assemblers, and craftspeople will start to work on your home. Throughout the entire process, Blue Ridge Quality Control Managers oversee construction and assembly to ensure everything is done right, on schedule, and according to the engineering plans.
- 8 Next, we deliver your home to your site. In 2004, we launched our own delivery service, so our experienced drivers, using our own trucks and support vehicles, can deliver on time, on schedule, with no break downs and no mishaps.
- 9 The onsite assembly process takes only a day and begins early in the morning. It's an amazing, awe-inspiring operation that we have down to a science. You'll want to grab a cup of coffee and watch the show as your dream home goes from foundation to roof top in just one day.
- 10 Now it's time for you to move in and begin living your dream.

No Assembly Required.
