TRUSTED EXPERTS IN SHORT CRUISING

At Bahamas Paradise Cruise Line, we have perfected short, 2-night voyages with daily departures to the Bahamas. Our staff is trained to be attentive, flexible and accommodating. That's why you can trust us to handle all the details from start to finish. We can customize effortlessly and deliver flawlessly. We promise smooth sailing, with entertainment, dining and a multitude of options available during your agenda's free time. We're famous for our attention to detail and understanding of what you need even before you ask. After all, nothing is more rewarding than having an expert staff all committed to the success of your meeting or event. And nothing builds camaraderie like the shipboard experience. You'll find that simply being at sea inspires creativity, conversation and new ideas.

TWO SPECTACULAR DESTINATIONS IN ONE

Unlike a landlocked hotel, your ship isn't the only destination. During a day-long stop at Grand Bahama Island, go beyond meetings and dedicate the entire day to teambuilding ashore. We can even tailor shore excursions specifically to your group. Whether your attendees snorkel over colorful coral reefs in a nature-inspired bonding session, engage in a spirited kayak race, or play an organized round of golf or beach volleyball, they'll come back laughing, glowing and energized.

We'll even organize social activities and team-building exercises whether at sea or ashore.

PRIVATE CHARTERS

Have a larger group and wish to have the entire ship all to yourself? With a full-ship charter, the sky's the limit. With public rooms of every size and shape, we can tailor any of them to meet your desires. Every detail is designed just for you. With a variety of suites and staterooms and the option of additional days at a resort on Grand Bahama Island with our Cruise & Stay program, you can craft the reward to match your employee's achievement. As part of your corporate benefits package, we can offer special rates for individual employee travel for weekend or weekday getaways.
